

NAVIGATION

OWNER REFERENCE GUIDE

DYNAMIC. PROGRESSIVE. REAL WORLD VERSATILITY. Your Subaru vehicle represents state-of-the-art design and technology. Your Navigation System helps you find travel routes, create maps, store addresses, and more. Prior to using the system, be sure to read the full Navigation System Owner's Manual so you have a complete understanding of the system. This Owner Reference Guide offers a quick guide for regularly used features, for your convenience. Subaru delivers style and technology to provide you with a satisfying owner experience.

Your control panel is your access to the Navigation System. You must stop your vehicle in a safe place before operating the system. Some of the controls and functions cannot be used unless the vehicle is stationary.

01 DEST

Press this to display the destination screen of your Navigation System.

02 MENU

Press this to display the menu screen of your Navigation System.

03 MAP

Press this to switch the screen to a Navigation System screen from any other screen.

04 INFO

Press this to display the vehicle information screen.

05

Press this to adjust the brightness/contrast of the image and to display a calendar.

NAVIGATION SYSTEM MAIN UNIT

The main unit is located under the driver's seat. Load a DVD-ROM disc into the system's main unit through the slot and press the eject button to eject the disc. Use the reset button in the event of a problem, or to upgrade the program.

SAFETY

OWNER REFERENCE GUIDE

Your Navigation System will assist you in reaching your destination and, if used properly, can do so with speed and ease. To use the system as safely as possible, follow all safety directions.

- **Before attempting to use this system while driving, learn how to use it.** Make sure you read the **entire** Navigation System Owner's Manual. Do not allow others to use this system until they read the manual and understand the instructions.
- You can program your destination and select your route only when your vehicle is **not moving**. While driving, listen to the voice instructions as much as possible and only glance at the screen briefly and when it is safe to do so.
- The data in the system may occasionally be incomplete as road conditions and driving restrictions (no left turns, road closures, etc.) change. Before you follow system instructions, make sure to check whether you can comply with the instruction legally and safely. Do not be distracted by the navigation screen. Failure to keep your attention on the road could lead to an accident.
- The system cannot warn you of environmental or street hazards or the availability of emergency systems. If you are unsure about the safety of an area, don't drive into it.
- Use this system only where it is legal to do so. Some states/provinces may have laws prohibiting video screens within the driver's sight.

And remember, this system is never a substitute for the driver's personal judgment.

EMERGENCY SCREEN

OWNER REFERENCE GUIDE

This function allows you to set the location of the nearest police station or hospital. To start the Navigation System, start the engine. The opening screen will appear, followed by the CAUTION screen. Read the instructions on the screen and press **AGREE**. The current map screen will appear. To select a language, press **MENU** on the screen, followed by **LANGUAGE SELECTION** and then select English or French by touching the screen.

To access the emergency screen, press **MENU**, then press **DESTINATION ENTRY**, then select **EMERGENCY**.

Select between **POLICE STATION** and **HOSPITAL**.

EMERGENCY SCREEN

OWNER REFERENCE GUIDE

The screen now displays several options:

Use  to display the five previous suggestions.

Use  to display the previous suggestion.

Use  to display the next suggestion.

Use  to display up to five of the next suggestions.

DIST. SORT sorts the list by distance.

NAME SORT sorts the list alphabetically.

Then select  (destination) or  (waypoint).

The system will route you to the nearest location automatically.

FINDING AN ADDRESS

OWNER REFERENCE GUIDE

1 To start the Navigation System, start the engine. The opening screen will appear, followed by the CAUTION screen. Read the instructions on the screen and press **AGREE**.
